### University of Kurdistan

Bachelor of Pure Chemistry  
2006-2010

### Islamic Azad University

Master of Applied Chemistry  
2010-2012

## PROJECTS

### Article

on Surface tension prediction for binary solutions

### Article

on Modeling the surface tension and interfacial density profiles, Iranian Journal of Chemistry and Chemical Engineering

### **Book**

Masters entrance exam: Applied Chemistry

### **Article**

on Statistical analysis and accurate prediction of thermophysical properties of ZnO-MWCNT/EG-water hybrid nanofluid using several artificial intelligence methods

## CERTIFICATES AND HONORS

### **Certificate**

Switzerland

2024

pf “Inv” Membership from International Federation of Inventors Association IFIA

### **Bronze Medal**

Istanbul, Turkiye

April 28, 2024

from 1 IDEA 1 WORLD (1/1W), International Innovation, Design and Startup Competition

### **Invitation Letter**

for passing the educational course Transforming tasks with  
AI at TDRA virtual academy

**Certificate**

UAE  
2024

for completing the course Foundation of Emerging  
Technologies

**Invitation Letter**

Istanbul, Turkey  
2024

for participating in 1 IDEA 1 World International  
Innovation, Design, and Startup Competition

**Certificate**

Middle East  
2024

of completing the Python for AI Workshop by WIIPA  
Middle East

**Certificate**

Tehran- Iran

2012

of participation in National Conference on Nanotechnology  
and Green Chemistry

**Certificate**

Tehran- Iran

2012

for the article on Modeling the surface tension and  
interfacial density profiles from Islamic Azad University  
at the 2nd National Conference in Oil, Gas, and  
Petrochemicals

**Certificate**

Tehran- Iran

2012

for the article on Surface tension prediction for binary  
solutions from College of Science, University of Tehran
